SUMMARY

Frontend Engineer with one year of experience shipping production features for a SaaS web application using **React**, **Next.js**, and **TypeScript**. Strong in reusable component systems, REST API integration, and responsive UI, with 700+ DSA problems solved.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C/C++, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Shadcn/ui, Zustand, React Context

Backend / DB: Node.js, Express.js, REST APIs, PostgreSQL, Prisma

Tools & Platforms: Git, GitHub, Vercel, Netlify, Postman, VS Code

EXPERIENCE

SOPSage

Frontend Developer

Remote

May 2025 – July 2026

- Developed and shipped responsive UI across 40+ routes of a production SaaS web application using **Next.js** (App Router), **React**, and **TypeScript**.
- Built a reusable component library — data tables, multi-step forms, modals, and approval flows — with **Shadcn/ui** and **Tailwind CSS**, standardizing UI patterns and speeding up feature delivery.
- Integrated **REST APIs** with robust loading, error, and empty states plus JWT auth and token refresh, reducing UI bugs from unhandled edge cases.
- Implemented client-side state with **Zustand** and **React Context**, and role-based, feature-flagged navigation to render permission-aware views.

Oasis Infobyte

Web Development Intern

Remote

Nov. 2024 – Dec. 2024

- Built and deployed multiple responsive web applications during a structured internship program, applying semantic HTML, responsive CSS, and component-based JavaScript for consistent cross-device UI.

PROJECTS

AI Resume Analyzer - Intelligent Optimization Tool | [Live Demo](#) | [GitHub](#)

- Built an AI-powered resume analyzer using **React Router v7** and **Puter.js**, handling serverless auth, file storage, and AI inference entirely client-side with no custom backend.
- Built an AI-powered evaluation pipeline using Puter.js, generating **ATS Compatibility Scores** and personalized, job-specific feedback from structured prompts.
- Built an application-tracking dashboard with search, sort, archive/restore, and inline editing, plus one-click feedback export to text files, using **Zustand** for global state.

Pocket Ledger - Expense Tracking PWA | [Live Demo](#) | [GitHub](#)

- Built the UI with light/dark theming and a command palette (**Cmd+K**) for quick navigation, deployed as an installable **PWA** with **Next.js**, **Tailwind CSS**, and **shadcn/ui**.
- Built budget tracking with per-category monthly limits, live progress bars, and under/over-budget indicators, alongside multi-currency support across 18 currencies with locale-aware formatting.
- Built analytics with **Recharts** for monthly spending trends and category breakdowns, plus one-click CSV export, secured end-to-end with **Auth.js** (Google/GitHub) and **Prisma**.

EDUCATION

JSS Academy of Technical Education

Bachelor of Engineering in Computer Science and Engineering

Bengaluru, Karnataka

Dec. 2020 – June 2024

ACHIEVEMENTS

- Solved **700+** data structures and algorithm problems across LeetCode and GeeksforGeeks.
- Secured **Institute Rank 2** on the GeeksforGeeks institutional leaderboard, reflecting consistent top performance among all CS peers.
- Ranked **587 out of 10,000+** participants in GeeksforGeeks Weekly Contest 167.
